

Model 170

Automatic audiometer

The **Amplivox 170** is a stylish, cost-effective screening audiometer offering both automatic and manual audiometry.

Improved use

The **Amplivox 170** is ideal for occupational health and primary care audiometric requirements.

Upon test completion, results can be printed with the optional printer, saved in memory for future use, recorded manually or transferred to a PC installed with Amplivox audibase software for electronic storage and statistical analysis of audiogram results.

Totally portable

Lightweight and compact, the **Amplivox 170**, weighs just 710g and is totally portable. It is ideal for both desktop and mobile needs.

Ergonomic design

Laid out in an ergonomic manner, the control panel is clear, easy to read and very easy to use with all settings and results displayed on the backlit display. The **Amplivox 170** is designed and manufactured to conform with the relevant international audiometric and safety standards.

- Automatic and manual audiometry
- Printout with optional printer
- Compact and easy to use
- Talk forward function
- Data analysis with optional Audibase PC software
- Reduced test time
- Totally portable
- Weighs just 710g
- User defined test frequency range
- USB connectivity
